Rich/Dave

I received a call from [Ex. 6 - Personal Privacy] asking again for water.

I spoke with her and explained that representatives from the EPA had meet with her regarding her water & the bottled water deliveries had been scheduled back to [Ex. 6 - Personal Privacy] as she had returned, and as she was suppose to be receiving them this whole time. She agreed, but also that but that [Ex. 6 - Personal Privacy] did not share her water with them and she told the EPA rep, that she was not going to drink the water because the sample results EPA shared did not show what **was** in the water only **what wasn't**. I again explained to her that she was not supposed to receive bottled water at any point, and the only reason she had was because that is what [Ex. 6 - Personal Privacy] had requested we do. [Ex. 6 - Personal Privacy] again stated that she wasn't going to drink her water and wanted bottled water. I explained that I could not just bring her water because [Ex. 6 - Personal Privacy] wouldn't share and that that decision was made by EPA and discussed with her, all I was capable of doing at this time would be to inform the EPA site personnel of her opinion. She said ok and hung up on me.
